The traveling webcam from Earth Trek is different from ordinary webcam that being sold outside, it won't make your notebook's LCD to be scretched since this desktop version using a metal sliding to make it stand. It is also uses an auto focus, auto brightness, snap button technology and comes with 2 port USB Hub, VGA quality image (640×480), and 1.3 Mpix sensor. You can get this for $45-$49 US. [Akihabara]
